OBJECTIVE

Motivated computer science graduate seeking a challenging position to apply programming skills, problem solving, and contribute to innovative solutions in a dynamic work environment. Skilled in object-oriented programming, web development and database technologies. Good problem-solving and communication skills and demonstrates a passion for learning and implementing new technologies.

Education

Infinity Management and Engineering College   **July 2020 – June 2024**
Bachelor of Technology in Computer Science   *Sagar, Madhya Pradesh*

Govt Excellence Higher Secondary School   **July 2019 – June 2020**
Higher Secondary Certificate   *Sagar, Madhya Pradesh*

High School Patna Khurd Sagar   **July 2017 – June 2018**
High School Certificate   *Sagar, Madhya Pradesh*

Relevant Coursework

- Data Structures
- Database Management
- OOPs Concept
- computer Network

Experience

MadQuick PVT Limited   **April 2024 – July 2024**
WordPress Web Development Intern   *Sagar, MP*

- Developed and maintained multiple WordPress-based e-commerce websites, improving UI/UX and optimizing page load speed.
- Customized WooCommerce plugins to enhance product filtering and checkout processes, reducing cart abandonment rates.
- Collaborated with designers to implement responsive layouts for seamless mobile and desktop experiences.

Coding Raja Technologies   **July 2023 – Augest 2023**
Java Development Intern   *Sagar, MP*

- Designed and implemented a desktop-based Music Player application using Java Swing and JavaFX for UI components.
- Integrated core audio playback functionality with Java Sound API, supporting MP3/WAV file formats.
- Developed features like playlist management, audio visualization, and equalizer controls using multithreading.

Projects

E-Commerce Platform | *Spring Boot, Angular, H2 Database*   **2025**

- Developed a full-stack e-commerce application using Spring Boot (REST APIs) and Angular (frontend) with H2 in-memory database for development.
- Implemented JWT authentication, product catalog management, and shopping cart functionality using Spring Security.
- Designed responsive UI components in Angular including product listings with pagination, user dashboard, and admin panel.
- Leveraged H2 Database's console for real-time data monitoring during development and testing phases.

Teacher Management System | *PHP, MySQL, JavaScript*   **2023-24**

- Built with MySQL database for persistent data storage of books, users, and transactions.
- Implemented PHP backend with MySQLi for secure database operations and prevention of SQL injection.
- Developed modules for attendance tracking, leave management, and timetable generation.
- Integrated data visualization charts to display performance analytics.

Technical Skills

Languages: Java, Spring-Boot, HTML/CSS, JavaScript, SQL, Angular
Developer Tools: VS Code, Eclipse, Bash
Technologies/Frameworks: GitHub, WordPress
